License Agreement for B9Creator™ 3D Printer.

Version 1.0, Released June 14, 2012.

PREAMBLE

In support of the maker community, we're releasing, under license, the documentation necessary to create your own B9Creator™ 3D printer! We've worked hard to develop the B9Creator 3D printer and hope to build on our efforts by continuing to improve and develop 3D printers. We feel that listening to and working with the maker community is an essential part of our R&D process so we're releasing the plans for the B9Creator and its patent pending technology under a noncommercial hardware license.

We've chosen this license because we believe it creates an environment where you can build and improve on our designs on your own, share those improvements, and we can partner with you to build better products in a cost effective manner while avoiding having the rug pulled from under us by individuals or companies that might try to unfairly profit from our development efforts.

In order to support open and friendly development, please do the following in accordance with the included licenses:

- Document and share any improvements you make to the B9Creator 3D Printer.
(please email improvements to accounts listed in the included "CONTRIB.TXT" file and email B9improvements@b9creations.com)
- Refrain from producing or selling more than five B9Creator 3D printers or printer kits per year.
- Whenever you share your improvements, pass along *all* documents you received from other developers.

B9Creations™ and B9Creator™ are trademarks of B9Creations, LLC. The B9Creator 3D printer is a patent pending device. Documentation provided under license may be used only according to the terms of the accompanying license. This preamble is for illustrative purposes only and shall not be used to limit the terms of the accompanying license.

TERMS AND CONDITIONS**1. Introduction**

1.1 This Agreement governs how you may use, copy, modify, and distribute Documentation, and how you may make, have made, and otherwise distribute Products based on that Documentation. As used in this Agreement, to “distribute” Documentation means to directly or indirectly make copies available to a third party, and to “distribute” Products means to directly or indirectly give, loan, sell or otherwise transfer Products described by Documentation to a third party, including portions of Products described by Documentation.

1.2 “Documentation” includes:

- a. schematic diagrams;
- b. circuit or circuit board layouts, including data files used to manufacture circuits or circuit board layouts;
- c. mechanical drawings, including CAD, CAM, and other data files used for manufacture;
- d. flow charts and descriptive text; and
- e. other explanatory material.

Documentation may be in any tangible or intangible form of expression, including but not limited to computer files and representations on paper, film, computer readable media, or other media.

1.3 “Products” include:

- a. circuit boards, mechanical assemblies, and other physical parts and components;
- b. assembled or partially assembled units (including components and subassemblies); and
- c. parts and components combined into kits intended for assembly by others;

which are based in whole or in part on Documentation.

1.4 “Licensor” means any person or other entity who contributes content to Documentation.

2. Applicability

2.1 This Agreement applies to any Documentation which contains a notice stating it is subject to the accompanying Noncommercial Hardware License, and to all Products based in whole or in part on that Documentation. If Documentation is distributed in an

archive (such as a “zip” file) which includes this document, all files in that archive are subject to this Agreement unless they are specifically excluded.

2.2 You accept this Agreement, agree to comply with its terms, and become a “Licensee” by (a) using, copying, modifying, or distributing Documentation, or (b) making Products, having Products made on your behalf, or distributing Products.

2.3 This Agreement does not apply to software, firmware, or code loaded into programmable devices which may be used in conjunction with Documentation or Products. Such software is subject to the license terms established by its copyright holder(s).

3. Termination of Rights

3.1 Any activity inconsistent with this Agreement will automatically terminate your rights under this Agreement (including the immunities from suit granted in Section 4). The rights of others who have received Documentation or have obtained Products directly or indirectly from you will not be affected so long as they fully comply with this Agreement.

4. Patents

4.1 Each Licensor grants you, every other Licensee, and every possessor or user of Products a perpetual, royalty-free immunity from suit throughout the universe under any patent, patent application, or other intellectual property right which he or she controls, to the extent necessary to make, have made, possess, use, and distribute Products. This immunity does not extend to infringement arising from modifications subsequently made by others.

4.2 If you make or have Products made, or distribute Documentation that you have modified, you grant every Licensor, every other Licensee, and every possessor or user of Products a perpetual, royalty-free immunity from suit throughout the universe under any patent, patent application, or other intellectual property right which you control, to the extent necessary to make, have made, possess, use, and distribute Products. This immunity does not extend to infringement arising from modifications subsequently made by others.

4.3 To avoid doubt, providing Documentation to a third party for the sole purpose of having that party make Products on your behalf is not considered “distribution,” and a third party's act of making Products solely on your behalf does not cause that party to grant the immunity described in the preceding paragraph.

4.4 These grants of immunity are a material part of this Agreement, and form a portion of the consideration given by each party to the other. If any court ruling, court judgment, legal agreement, or other agreement or proclamation prevents you from

granting the immunity required by this Section, your rights under this Agreement will terminate and you may no longer use, copy, modify or distribute Documentation, or make, have made, or distribute Products.

5. Modifications

5.1 You may modify Documentation. Modifications become part of Documentation and are subject to this Agreement, as are Products based in whole or in part on modifications to Documentation. If you distribute modified Documentation, or Products based in whole or in part upon it, you must email modified Documentation in a form compliant with Section 6 to each Licensor who has provided an email address with Documentation (e.g., email addresses within an accompanying “CONTRIB.TXT” file in Documentation). Attempting to send the email completes your obligations under this Section.

6. Distributing Documentation

6.1 You may distribute unmodified copies of Documentation in its entirety in any medium provided that you retain all patent notices, patent pending notices, copyright notices, trademark notices, and other notices (including references to this Agreement) included by each Licensor and include this Agreement.

6.2 You may distribute modified copies of Documentation if you comply with all the requirements of the preceding paragraph and:

- a. include a prominent notice in an ASCII or other common format file (e.g., a “CHANGES.TXT” file) identifying those elements of Documentation that you changed, and stating that the modifications are licensed under the terms of this Agreement;
- b. include all new documentation files that you create, as well as both the original and modified versions of each file you change (files may be in your development tool's native file format, Where reasonably possible, include a common file version, such as an ASCII, Postscript, or PDF version);
- c. do not change the terms of this Agreement with respect to subsequent licensees; and
- d. if you make or have Products made, include in Documentation all elements reasonably required to permit others to make Products, including CAD/CAM and other files used for manufacture.

7. Making Products

7.1 You may use Documentation to make or have Products made, provided that each Product retains any notices included by the Licensor(s) (including, but not limited to, patent notices, patent pending notices, copyright notices, and trademark notices).

7.2 You may distribute Products provided that you include with each unit either: (a) a copy of Documentation in a form consistent with Section 6; (b) an offer valid for at least three years to provide Documentation at no charge, other than the reasonable cost of media and postage, to any person who requests it; or (c) a URL where Documentation may be downloaded, available for at least three years after you last distribute the Product.

8. LIMITATIONS ON MAKING PRODUCTS

8.1 Products may only be made for your personal use. Making more than five units in any twelve month period for any purpose is deemed commercial use and is prohibited. Products made for your personal use may be distributed, but no more than five units in any twelve month period may be distributed for any purpose, including non-profit purposes. These limitations may be altered or waived through written or email permission obtained from each Licensor.

9. WARRANTY AND LIABILITY LIMITATIONS

9.1 DOCUMENTATION IS PROVIDED ON AN “AS-IS” BASIS WITHOUT WARRANTY OF ANY KIND, TO THE EXTENT PERMITTED BY APPLICABLE LAW. ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND TITLE, ARE HEREBY EXPRESSLY DISCLAIMED.

9.2 IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW WILL ANY LICENSOR BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES ARISING OUT OF THE USE OF, OR INABILITY TO USE, DOCUMENTATION OR PRODUCTS, INCLUDING BUT NOT LIMITED TO CLAIMS OF INTELLECTUAL PROPERTY INFRINGEMENT OR LOSS OF DATA, EVEN IF THAT PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

9.3 You agree to defend, indemnify, and hold each Licensor harmless from any claim brought by a third party alleging any defect in the design, manufacture, or operation of any Product which you make, have made, or distribute pursuant to this Agreement.
